

Euromech Meetings in 1998 and 1999

The Euromech Council has overall responsibility for Euromech Colloquia and Euromech Conferences.

Euromech colloquia are informal meetings on specialized research topics. Participation is restricted to a small number of research workers actively engaged in the field of each Colloquium. The organization of each Colloquium, including the selection of participants for invitation, is entrusted to a Chairman. Proceedings are not normally published. Those who are interested in taking part in a Colloquium should write to the appropriate Chairman. Euromech Conferences are broad in scientific scope. They comprise the Euromech Solid Mechanics Conference, the Euromech Fluid Mechanics Conference, the Euromech Turbulence Conference, the Euromech Nonlinear Dynamics Conference and the Euromech Mechanics of Materials Conference. They are open to all those interested and are expected to have a number of participants between 150 and 600. The general purpose is to provide opportunities for scientists and engineers to meet and discuss current research. The responsibility for each series of Conferences

is delegated to a Standing Conference Committee. The organizational work is carried out by Local Organizing Committees (LOC). Those who are interested in taking part in one of the Conferences should write to the Chairman or Secretary of the appropriate LOC. Information about the Conferences in 1998 and one Conference in 1999 is given below.
